Technical Skills and Interests

Languages: C, C++, HTML, CSS, JavaScript, Python
Developer Tools: VS Code, Git
Frameworks: Bootstrap, React, Node.js, Express
Databases: MongoDB, SQL
Soft Skills: Problem-solving, Communication, Teamwork
Coursework: Data Structures and Algorithms, Web Development
Areas of Interest: Full-stack development, Stock Market Analysis

About Me

A passionate Computer Science Engineering (CSE) student with a strong interest in technology and problem-solving. With a foundation in software development, data structures and algorithms, I constantly strive to learn new technologies and expand my skill set. I enjoy exploring areas like artificial intelligence, machine learning, and web development. Outside of academics, I like working on personal coding projects, contributing to open-source communities, and participating in hackathons. Through my studies and practical experiences, I aim to build solutions that address real-world problems and make a meaningful impact on society. I'm always open to collaborating with others and looking for opportunities to grow in the field of computer science.
